While every section of the county sent a fine number of representatives to the Good Roads Club organization, the delegation from DuBois surpassed all expectations in numbers and quality was on a par with quantity. A fine body of public spirited men and they made an imposing sight on their march from the train to the Court House.

FOR GOOD ROADS

There ain't much use of kickin'
It doesn't make for peace
But the wheel that does the screeching
Is the one that gets the grease.

The county wide club in the interest of good roads which was formed today was not formed for the purpose of kicking but there is a wealth of truth in the few lines preceeding this article. Clearfield County, to obtain the consideration due her from the state, must show the state officials that they will appreciate that consideration and co-operate with the state in carrying out their plans. Other counties have clubs of men banded together for the purpose of presenting their claims and for the greater purpose of carrying out and fostering plans for development. Clearfield County roads have been neglected in past years because Clearfield County by its silence has indicated to the state officials that we are content to wallow in mud and jolt over "thank you mams" while residents of other counties are riding over smooth, well kept roads. It will not be the function of the newly organized good roads club to demand but rather to show by clear logic, sound reasoning and good argument that Clearfield County roads are sadly in need of expert attention on the part of the state; that the people of the County will co-operate with the state in making the necessary repairs improvements and developments and that Clearfield County will be appreciative of whatever is given to it.

The organization of the Clearfield County Good Roads Association started off with a wonderful show of enthusiasm. Results will not come at once but a tremendous lot of work is necessary before the state will begin their allotment of funds and laying of plans. Meanwhile the county good road association must build up their membership until it reaches into the thousands. Its staff of officers must acquaint themselves with the needs of every district in the county because the object of the club is to get better roads for all insofar as this ideal condition can be brought about.

The Good Roads Association has a wonderful future. By being alert and never ceasing in its efforts to obtain good roads for Clearfield County, it can in a short space of years, bring the roads of our county up to a par with the roads in Eastern counties. If it can bring about those things, the Good Roads Association will have performed a great service to every resident of the county. No one thing so vitally affects the wealth and happiness of the people of a community as to have good roads on which to carry on their business, and move from place to place in pursuit of pleasure or more business. Good roads will make better neighbors of all of us. Thus being able to travel throughout the county with more freedom, comfort and ease it will not be long until the four corners of Clearfield County are brought into intimate relations with each other. It will promote business, friendship and weld us into a unit instead of being a county composed of sections and districts not one of which knows the other well enough to call its residents by their first names.

Built Into The City's Life

By giving the people of Clearfield valuable service, the Clearfield National Bank has become a servant of the community.

The beginning of each year find its foundations stronger.

This bank is now depository for thousands of dollars belonging to local industries, institutions and individuals.

The officers will be glad to talk with you about our assistance.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of salts if your back hurts or bladder troubles you

No man or woman who eats meat regularly can make a mistake by flushing the kidneys. Occasionally, says a well known authority, Meat from one animal which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness, sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of "aching," stop eating meat and get about four ounces of Jai Salts from any pharmacist take a rubber spoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending kidney weakness.

Jai Salts is inexpensive and cannot injure; makes a delightful beverage; lithia-water drink which even the most fastidious can take. It keeps the kidneys clean and active and the blood pure. It relieves aches and pains, cures kidney troubles and gives the kidneys a new lease of life. It is a truly healthy and delicious food.

Pile Sufferers! Clever Ohio Chemist Says This Great Prescription Taken Internally Has Never Failed

Even Chronic cases of 20 to 30 Years standing, with profuse bleeding, have been completely cured in from three to ten days

No discovery of recent year in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that piles can be successfully treated and cured at home by a wonderful prescription known to the ancients as Miro Pile Remedy.

It has been proved that so called external hemorrhoids applied or inserted into the rectum cannot cure piles and at the best only give temporary relief.

This is also true of surgical operations which simply remove them after formation, but in no wise acts on the source of the trouble.

This prescription, although taken internally, is not digested in the stomach, but is rapidly assimilated and unchanged to the intestines in a short time reaching the exact place where by

its soothing, healing action it first allays all inflammation and then by direct contact with all ulcers and piles, causes them to heal and disappear forever.

It is positively marvelous how speedily it acts. Blessed relief often comes in two or three days at most, even in cases with profuse bleeding that have resisted all known treatments and operation really wonderful results have been accomplished.

The author of this amazing discovery directs all sufferers to know that he does not want a cent of anyone's money unless Miro Pile Remedy decisively cures them in the true sense of the word.

IMPOUND: What is known as Miro Pile Remedy is not a pile in the true sense of the word, although this condition may accompany the true case of piles. For this condition Miro Pile Remedy has been prepared as in such cases it is not necessary to take the internal

Three exciting and hotly contested games were backed at Kelly's last evening by two of the Crescent Raceway teams. The office team, Smith, Ammerman, Anderson, Edwards and Ibberson lined up against the superintendents' team, Leimbach, Maurey, Bailey, Wall and O. F. Smith, and bowled them out, literally and figuratively. The first game went to the office team with a credit of one, their opponents captured the second as a consolation prize—and the office team walked off victor with the third game after chalking up a credit of seventy. They say that if Leimbach had finished with the pep he started with, his team would have been the "cheer leaders." Two other "Crescent" teams are being organized and the four teams promise some mighty interesting games.

BUILD SPLIT-LOG ROAD DRAG

Main Point to Remember is That Device Should Be Faced With a Strip of Old Iron.

Everybody knows about the split-log road drag and the one here shown is so clear that it needs little explanation. The main point to be remembered is that a part of the front portion of the drag, should be faced with a strip of iron (an old wheel or the like) and the hitch so arranged that the drag will move about at an angle—always pushing the logs that toward

A Road Drag.

the center of the road. The occasional use of this drag on any road will certainly improve it and no farmer will make a mistake in constructing one and using it on the highways that pass through his farm.

FARMER NEEDS GOOD ROADS

Motor Man Extended His Sphere of Operation Until 100 Miles Doesn't Worry Him.

There is a reason for American farmers in rural life. We need not be utterly content with what we have. Our highways, unimproved, compared with the fine smooth roads of Europe. We must remember that European highways were hundreds of years in the making and in periods when roads were the lifeblood of transportation, both civil and military. There were no railroads, no electric lines, no wire communication. Road building was the essence of commercial life and civilization.

American started almost with the wheel and the oxen. Comparatively a few years later we had the railroad. Our roads were neglected because they were only used in emergency. Our railroads and telegraph enabled us to keep the country. But now we are confronted by a new need. It is the need for better land transportation. Says Chicago Tribune. Where formerly the farmer was content with a few miles of dirt roads for his local traffic, he now requires hundreds of miles, for his own use and for the use of his neighbors.

A few years back there was the protest that good roads were merely the argument of the automobile, a species restricted chiefly to metropolitan districts. A part of that argument still remains—that good roads are the demand of the automobilist; but the automobilist is no longer the motor has extended his sphere of operation until 100 miles is of no more concern to him than was ten before.

FOR GOOD SPRING HIGHWAYS

One Big Item in Preparedness Program is to Clean Outside Ditches During Autumn.

Winter weathering may be great for the farmer's fields, but it's hard on the roads.

The best way to prevent extreme weathering of the road is to clean out the side ditches before frost comes or sets in and to keep the road surface in condition so that it will freeze up in a well-drained condition.

Cleaning the side ditches will allow the water to run off and avoid the possibility of the road freezing in a rutted condition. Draining the road to a smooth surface will eliminate potholes and water pockets and allow the water to escape to the side ditches.

While every section of the county sent a fine number of representatives to the Good Roads Club organization, the delegation from DuBois surpassed all expectations in numbers and quality was on a par with quantity. A fine body of public spirited men and they made an imposing sight on their march from the train to the Court House.

FOR GOOD ROADS

There ain't much use of kickin'
It doesn't make for peace
But the wheel that does the screeching
Is the one that gets the grease.

The county wide club in the interest of good roads which was formed today was not formed for the purpose of kicking but there is a wealth of truth in the few lines preceeding this article. Clearfield County, to obtain the consideration due her from the state, must show the state officials that they will appreciate that consideration and co-operate with the state in carrying out their plans. Other counties have clubs of men banded together for the purpose of presenting their claims and for the greater purpose of carrying out and fostering plans for development. Clearfield County roads have been neglected in past years because Clearfield County by its silence has indicated to the state officials that we are content to wallow in mud and jolt over "thank you mams" while residents of other counties are riding over smooth, well kept roads. It will not be the function of the newly organized good roads club to demand but rather to show by clear logic, sound reasoning and good argument that Clearfield County roads are sadly in need of expert attention on the part of the state; that the people of the County will co-operate with the state in making the necessary repairs improvements and developments and that Clearfield County will be appreciative of whatever is given to it.

The organization of the Clearfield County Good Roads Association started off with a wonderful show of enthusiasm. Results will not come at once but a tremendous lot of work is necessary before the state will begin their allotment of funds and laying of plans. Meanwhile the county good road association must build up their membership until it reaches into the thousands. Its staff of officers must acquaint themselves with the needs of every district in the county because the object of the club is to get better roads for all insofar as this ideal condition can be brought about.

The Good Roads Association has a wonderful future. By being alert and never ceasing in its efforts to obtain good roads for Clearfield County, it can in a short space of years, bring the roads of our county up to a par with the roads in Eastern counties. If it can bring about those things, the Good Roads Association will have performed a great service to every resident of the county. No one thing so vitally affects the wealth and happiness of the people of a community as to have good roads on which to carry on their business, and move from place to place in pursuit of pleasure or more business. Good roads will make better neighbors of all of us. Thus being able to travel throughout the county with more freedom, comfort and ease it will not be long until the four corners of Clearfield County are brought into intimate relations with each other. It will promote business, friendship and weld us into a unit instead of being a county composed of sections and districts not one of which knows the other well enough to call its residents by their first names.

Built Into The City's Life

By giving the people of Clearfield valuable service, the Clearfield National Bank has become a servant of the community.

The beginning of each year find its foundations stronger.

This bank is now depository for thousands of dollars belonging to local industries, institutions and individuals.

The officers will be glad to talk with you about our assistance.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of salts if your back hurts or bladder troubles you

No man or woman who eats meat regularly can make a mistake by flushing the kidneys. Occasionally, says a well known authority. Meat from one animal which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness, sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of burning, stop eating meat and get about four ounces of Jai Sals from any pharmacist take a rabbyespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jai Salt is inexpensive and cannot injure; makes a delightful beverage; lithia-water drink which even the most fastidious can take to keep the kidneys clean and active and the bladder healthy, avoiding serious kidney troubles and giving the bladder a much needed rest.

Paul Verduin, the Parisian poet, wrote up one night to find a couple of burglars in his room. Shortly before he had been driven by poverty to sell every stick of furniture and was reduced to sleeping on a sack. His visitors were so touched by this evidence of his dire poverty that they gave him a franc apiece and then their departure.

HAD BRONCHIAL COUGH FOR 36 YEARS

Mrs. Bice finally found how to stop it, without changing climate.

"I had suffered with bronchitis for 36 years. When I was two years old, I had the whooping cough and it left me in an awful state ever since. I had taken hundreds of dollars worth of medicine, with but little relief. I had been up in bed all night and cough, and up strings of phlegm, and choked until my eyes nearly burst out of my sockets. I am poor and could not afford to change climate. Finally my husband urged me to try Milks Emulsion, saying if it didn't do so, I could get my money back. I tried it and have continued its use ever since. Now my bronchial tubes are free and clear and I can breathe with ease. I am sure that I had this dreadful cough all my life, you can see why I tried everybody to try Milks Emulsion." Mrs. Anna Bice, 1451 Wendall St., Columbus, Ohio.

Coughs and gargles and local remedies do not touch a cough of this kind. The whole system must be strengthened and built up to get it off. The same thing is true of all colds.

Milks Emulsion is a pleasant, nutritious food and a corrective medicine. It cures healthy, natural bowel action, away with all need of pills and cathartics. It promotes appetite and quickens the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to run-down nervous people and it has produced amazing results in many cases of asthma, chronic bronchitis and tuberculosis of the lungs. It cures cough, trouble and constipation promptly—usually in a few days.

Milks Emulsion is the only solid emulsion made. It is so reliable that it is like a true like ice cream. A truly wonderful name for weak, sickly children.

Whatever how severe your case, you need to try Milks Emulsion under guarantee. Take six bottles home, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold and guaranteed by all Drug Stores.

President of the Swiss Confederation, who is elected by the federal assembly, holds office for only one year, from January 1 to December 31, usually the Vice-President succeeds him. His chief duty is to direct the country's foreign policy, for of the internal administration is in the hands of the cantons or districts.

OBITUARY

SHERWOOD YOTHERS DIES

Sherwood Yothers died at the home of his mother on Third street at 7:10 o'clock this morning after an illness of about eight weeks in the 27th year of his age. His death was due to kidney affection.

Sherwood Yothers was a quiet, manly young man, hard-working and upright in all his dealings. He learned the printing trade in the office of the "Raftsmen's Journal" and had been a valued employee of that office for the past eight or nine years.

He was a member of the Lutheran church and lived a consistent Christian life. He was also a member of Washington Council P. O. S. of A. Funeral announcement later.

We are specializing on the OLD TIME GOSPEL at the special meetings. First Baptist church. Meeting starts 7:30. Come.

NO NEED TO FEAR INFLUENZA NOW

Advise Keeping Korkola Handy—the Discovery of a Clever New York Chemist

The danger from influenza is by no means over and the public are still warned to be on their guard.

Infection proved only possible by entrance through nose and mouth of virus of Influenza Goms.

Famous Korkola applied to mucous membranes of nose and throat not only wards off Influenza but also relieves severe catarrhal conditions, soothing the inflamed membranes and permitting the easy expulsion of germ-infected phlegm.

IMPORTANT—Your druggist can supply you. In some districts the demand has been so heavy that there is a temporary shortage. The public is advised to insist on Korkola as all wholesalers are supplied and your druggist, if he is sold out, can get it for you on short notice.

"Behold NOW is the ACCEPTED time. Now is the day of salvation." Revival meetings every night. First Baptist church.

Pile Sufferers! Clever Ohio Chemist Says This Great Prescription Taken Internally Has Never Failed

Even Chronic cases of 20 to 30 Years standing, with profuse bleeding, have been completely cured in from three to ten days

No discovery of recent year in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that Miro can be successfully treated and cured at home by a wonderful prescription known to the chemist at Miro Pile Remedy.

It has been proved that so called external remedies applied or inserted into the rectum cannot cure piles and at the best only give a temporary relief.

This is also true of surgical operations which simply remove them after formation, but in no way acts on the source of the trouble.

This prescription, although taken internally, is not digested in the stomach, but is rapidly assimilated and unchanged in the intestines in a short time reaching the exact place where by

its soothing, healing action it first allays all inflammation and then by direct contact with all ulcers and piles, causes them to heal and disappear forever.

It is positively marvelous how speedily it acts. Blessed relief often comes in two or three days at most, even in cases with profuse bleeding that have resisted all known treatments and operation really wonderful results have been accomplished.

The author of this amazing discovery directs all sufferers to know that he does not want a cent of anyone's money unless Miro Pile Remedy decisively cures them in the true sense of the word. For this condition Miro Pile Remedy is not a cure of piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Remedy has been prepared as in such cases it is not necessary to take the internal prescription.

NEWS OF ROAD BUILDING

OUR NEIGHBORS

CURWENSVILLE

M. J. Kelly who is general manager of the Cato Coal company, transferred business at that place on Tuesday.

A little daughter was born to Mr. and Mrs. William Wilson of the South Side, Tuesday.

Rev. J. Max Lantz of Grace M. E. church will hold special services this coming week; Tuesday, Wednesday and Sunday evenings.

Mrs. Frank Weaver who has been seriously ill at her home on North Thompson street for the past three weeks, is reported as somewhat improved.

Mrs. Harry Bilger of North Pine street who underwent a slight operation at the Clearfield hospital last Monday, has recovered sufficiently to be brought to her home.

A checker tournament will be held this afternoon in Percy Holt's barber shop. Three teams of four men each, will play for the championship.

Frank Alexander of Reynoldsville representing the Equitable Life Insurance Co. was a town visitor today.

Frank Wilson who has been confined to his home the past week with a severe cold, is able to be out again.

Mrs. Fred Robinson and Little son, Robert, spent the day in Clearfield as guests of the former's sister Mrs. Austin Heisel of Thompson avenue.

John Middleton is quite ill at his home in Nantillon.

Lynn Stewart has moved his family into one of the newly completed houses that have been erected on Thompson street by C. O. Norris.

Three exciting and hotly contested games were backed at Kelly's last evening by two of the Crescent Racefractious teams. The office team, Smith Ammerman, Anderson, Edwards and Liberson lined up against the superintendents' team, Leimbach, Maurey, Bailey, Wall and O. F. Smith, and bowled them out, literally and figuratively. The first game went to the office team with a credit of seven. Their opponents captured the second as a consolation prize—and the office team walked off victor with the third game after chalking up a credit of seventy. They say that if Leimbach had finished with the pep he started with, his team would have been the "cheer leaders." Two other "Crescent" teams are being organized and the four teams promise some mighty interesting games.

GIRLS PLAY BASKETBALL TONIGHT

A large crowd of good road and basket ball enthusiasts came over to Clearfield today and it is said a number of them will stay over to see the Dubois girls get trimmed by the local girls at the Y. M. C. A. tonight. The Clearfield girls met the Dubois players at the train this afternoon and escorted them to the Dimeling where they will stay while in our city.

NOTICE CLASS NO. 17

Class No. 17 of Trinity M. E. church will meet at the home of Mrs. J. C. Forsyth on Friday evening at 8 o'clock. All members requested to be present.

DON'T SUFFER WITH NEURALGIA

Use Soothing Mustard

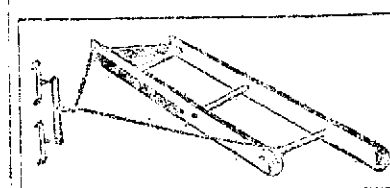

When those sharp pains shooting through your head, neck, face, shoulders as if it would split, just rub a little Mustard on your forehead and neck. It drives out the pain and gives you a new feeling of ease.

Mustard is a natural remedy for neuralgia. It is a powerful antiseptic and disinfectant. It is a powerful stimulant and it is a powerful sedative. It is a powerful remedy for neuralgia.

BUILD SPLIT-LOG ROAD DRAG

Main Point to Remember is That Device Should Be Faced With a Strip of Old Iron.

Everybody knows about the split-log road drag and the one here shown is no exception. The main point to remember is that a part of the front portion of the drag should be faced with a strip of iron (an old wheel or tire) and the hitch should be made of the drag will move about at an angle—always pushing the drag that toward

A Road Drag.

the center of the road. The occasional use of this drag on any road will certainly improve it and no farmer will make a mistake in constructing one and using it on the highways that pass through his farm.

FARMER NEEDS GOOD ROADS

Motor Man Extended His Sphere of Operation Until 100 Miles Doesn't Worry Him.

There is a reason for American farmers in rural life. We need not be utterly content with what we have. Our highways, unfortunately compared with the fine smooth roads of Europe, we must remember that European highways were hundreds of years in the making and in periods when roads were the means of transportation, both civil and military. There were no railroads, no electric lines, no telecommunication. Road building was the essence of commercial life and civilization.

American started almost with the wheel and the oxen. Comparatively a few years later we had the railroad. Our roads were neglected because they were only used in emergency. Our railroads and telegraph enabled us to keep the country. But now we are confronted by a new need. It is the need for better land transportation. Says Chicago Tribune, Where formerly the farmer was content with a few miles of dirt roads for his local traffic, he now requires hundreds of miles for his own use and the use of his neighbors.

A few years back there was the protest that good roads were merely the argument of the automobile, a species restricted chiefly to metropolitan districts. A part of that argument still remains—that good roads are the demand of the automobilist; but the automobilist is no longer the motor has extended his sphere of operation until 100 miles is of no more concern to him than was ten before.

FOR GOOD SPRING HIGHWAYS

One Big Item in Preparedness Program is to Clean Outside Ditches During Autumn.

Winter weathering may be great for the farmer's fields, but it's hard on the road.

The best way to prevent extreme weathering of the road is to clean out the side ditches before frost comes or sets in and to keep the road surface in condition so that it will freeze up in a well-drained condition.

Cleaning the side ditches will allow the water to run off and avoid the possibility of the road freezing in a rutted condition. Freezing the road to a smooth surface will eliminate potholes and water pockets and allow the water to escape to the side ditches.
